High-Performance Blenders

Improving high-volume efficiency

With our high-performance blenders, it's easy to achieve optimum results every time you blend. From convenient timers with automatic shutoff to advanced one-touch cycles, they have everything you need for maximum blending control and efficiency. To reduce noise, consider one with a sound enclosure — it will provide amazing power, yet it won't interrupt conversations.

HBH455 Series

HBH455 (120 V) HBH455 (230 V)

HBH550R Series

Fury™ Blender
3 HP motor

Two Speeds plus Pulse – Offer precision blending for a wide variety of drink mixtures.

Timer with Automatic Shutoff – Indispensable for busy bars, it frees operators up for other tasks.

Powerful 3 HP motor – Built with a durable all-metal drive coupling to satisfy the demands of the busiest bars.

64 oz./1.8 L Stackable BPA-Free Copolyester Container – Features patented Wave~Action® system for optimal blending performance.

HBH650R Series

Tempest® Blender
3 HP motor

Two Speeds, Jump Cycle, and Pulse Button – Offer precision blending for a wide variety of drink mixtures.

Timer with Automatic Shutoff – Indispensable for busy bars, it frees operators up for other tasks.

Powerful 3 HP motor – Built with a durable all-metal drive coupling to satisfy the demands of the busiest bars.

64 oz./1.8 L Stackable BPA-Free Copolyester Container – Features patented Wave~Action® system for optimal blending performance.

HBH755R Series

Eclipse™ Blender
3 peak* HP motor

QuietBlend™ Technology – Reduces motor noise and works with the Quiet Shield™ enclosure to lower sound to a conversation level.

Over 100 Pre-programmed Cycles – Can be assigned to 5 buttons for popular drinks and additional cycles can be loaded via USB.

Sensors – Equipped on the shield and jar pad (120 V only) to extend life and ensure quiet operation.

Powerful 3 Peak* HP Motor with Airflow Design – Provides excellent blending results, helps prevent motor overheating, and extends motor life.

64 oz./2 L Stackable BPA-Free Copolyester Container – Features patented Wave~Action® system for optimal blending performance.

HBH855 Series

Summit® Edge Blender
3.5 peak* HP motor

PowerBlend Technology – Delivers fast, consistent results for even the toughest recipes.

Advanced Quiet Blend™ technology – For ultra-quiet blending.

Auto Blend – For one touch blending.

Intuitive Capacitive Touchpad – With 6 programmable buttons, variable speeds and pulse.

36 Pre-Programmed Cycles in 11 Languages – Easily accessible USB port for uploading additional custom cycles.

Powerful 3.5 peak* HP motor – With hybrid drive coupling delivers ample power and torque to stainless steel blades.

Stackable 48 oz./1.4 L BPA-free copolyester container

ACCESSORIZE

6126-751R AirWhip Frothing Jar

- Versatile 48 oz./1.4 L container for delicate blends
- Removable filler cap
- Durable jar clutch

6126-855 Blender Container

- Fits HBH855 Series
- Stackable 48 oz. / 1.4L BPA-free copolyester container
- Stainless steel blade
- Laser-etched measurements

Beverage Automation

Taking automation to the next level

Whether you need a large batch of drinks or single servings by the cup, we have the beverage automation solution that's right for you. By removing the possibility of inconsistency, these automation options are able to achieve perfection with every serving. Not only will you serve delicious drinks day after day, you'll save valuable time and labor year after year.

HBS1400R Series

Revolution® Ice Shaver/Blender

5 gallon / 19 L ice capacity

Revolution® Portion System – For maximum accuracy, the ice portioning system counts the number of times the agitator passes the shaver blade. Regardless of the motor load, the correct amount of ice comes out every time.

Double-Wall Hopper – Insulated for quiet operation and to keep ice cold.

Sensor Technology – Hopper sensor prevents operation when lid is not in place. Drain sensor indicates if water is backed up in the drain.

Powerful 3 HP Motor – Heavy-duty and built to satisfy the demands of the busiest bars.

Automatic Cycle Buttons – Lets operators select serving size and number of servings for precise results.

64 oz./1.8 L Stackable Container with Wave-Action® System – Provides optimal blend performance.

Ship Weight: 71 lbs/32.2 kg

Warranty: 2 years parts & labor (lifetime on motor drive coupling and blade)

BCR100R

Container Rinser

Designed To Rinse Various Containers – Rinses all jars, cups and containers up to 64 oz./2 L.

Durable Construction – Stainless steel spray nozzle; break-resistant polycarbonate.

Easy Operation – A gentle push on platform activates spray.

Compact and Low Profile Design – Fits easily in sink at 6.25" / 160 mm square and 5.25" / 133 mm high.

Raised Nozzle – For better cleaning.

Suction Cup Feet – Hold rinser securely in place.

Ship Weight: 1.2 lbs/0.5 kg

Warranty: 1 year parts & labor

BCR100R Specifications:

Unit comes with base, nozzle, hose. Base: break-resistant polycarbonate; with 4 suction cups. 2.5 ft./0.7 m flexible 3/8" / 10 mm (ID) reinforced tubing with swivel garden hose (GHT) fitting. No electricity required. Flow rate: 2.25 gpm/8.521 pm@60 psi

BIC2000 Series

SmartServe™

Blends in the cup

Simple, Clean Process – Just add ingredients to cup, insert cup in machine, and press start. It blends and stops automatically and the drink is ready to serve.

Saves Ingredients and Time – No more wasted in ingredients in blender jar and it eliminates the step of emptying, cleaning, and storing jars.

Saves Water – Rinses with as little as 10 oz./300ml of water. It reduces water usage by 8 times compared to manual cleaning.

Increases Productivity – Staff can perform other tasks while the machine blends.

Ship Weight: 103 lbs/47 kg

Warranty: 1 year parts & labor

230 V Specifications:

BIC2000-CE

BIC2000-UK

220-240 V~, 60 HZ, 2 A

Drink Mixers

Mixing perfect shakes since 1911

We invented the first drink mixer over 100 years ago, and we're still going strong today with our wide selection of world-class mixing machines. From timeless drink mixers to heavy-duty mixing machines, you'll get all the mixing control and power you need, whether you're preparing creamy milk shakes with hard ice cream or soft-serve creations with candy mix-ins.

HMD200R Series

Single Spindle

Mixes one shake

Versatile Drink and Food Prep – Great for everything from mixing shakes and “flashing” bar drinks to blending eggs and batters.

Excellent Mixing Performance – Powerful 1/3 HP precision motor is balanced to minimize vibration and is built to last with sealed, permanently lubricated ball bearings. Operator can easily replace motor in minutes.

Two-Way Motor Activation – Operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer.

Easy to Clean – Smooth housing made of stainless steel and die-cast aluminum. Cup guide removes for cleaning.

Sealed Housing – Eliminates the risk of water ingress and motor failure.

HMD300 Series

Wall Mount

Saves space

Saves Valuable Counter Space – Fully featured in convenient wall-mount design, and plugs into standard outlet.

Excellent Mixing Performance – Powerful 1/3 HP precision motor is balanced to minimize vibration and is built to last with sealed, permanently lubricated ball bearings. Operator can easily replace motor in minutes.

Two-Way Motor Activation – Operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer (120 V only).

Easy to Clean – Smooth housing made of stainless steel and die-cast aluminum.

Sealed Housing – Eliminates the risk of water ingress and motor failure.

HMD400R Series

Triple Spindle

High-volume applications

Ideal for High Volume – All the features of the single spindle mixer with triple the volume.

Excellent Performance – Powerful 1/3 HP motor for each spindle, each with its own controls.

Precision Motor – Balanced to minimize vibration and built to last with sealed, permanently lubricated ball bearings.

Two-Way Motor Activation – Operators can start and stop mixing action by inserting the cup into the cup guide, or by using the pulse switch on the top of the mixer.

Easy to Clean – Smooth housing made of stainless steel and die-cast aluminum. Cup guide removes for cleaning.

Sealed Housing – Eliminates the risk of water ingress and motor failure.

HMD880 Series

MixStation™

Heavy-duty mixing

Brushless Induction Motor – Provides quiet operation and worry-free use.

Single speed operation – Operators can easily start and stop mixing action by flipping the switch.

Wide Working Space – Allows easy maneuvering of cup without restrictions.

Contoured Splash Shield – Reduces discomfort on the operator’s wrist.

Easy To Clean – Smooth, rounded corners easily wipe clean. Drip tray and magnetic splash shield are removable.

Optional Foot Pedal – For hands-free power activation (120 V only).

HMD1000 Series

MixStation™

Heavy-duty mixing with more control

Powerful Mixing Performance – 3/4 HP motor provides heavy-duty mixing action for ice cream treats with candy, fruit, and nut mix-ins.

Pre-programmed Cycles – Deliver consistent results regardless of the operator with option to upload custom programs via USB

Variable Speed Dial – Provides maximum flexibility and customization.

Capacitive Touch Controls – Sealed for easy cleaning.

Contoured Splash Shield – Reduces discomfort on the operator’s wrist.

Easy To Clean – Smooth, rounded corners easily wipe clean. Drip tray and magnetic splash shield are removable.

Optional Foot Pedal – or hands-free power activation (120 V only).

Expeditor™ Family of Culinary Blenders

Creating the perfect blend for chefs

Ordinary blenders can't compete with Expeditor™ blenders when it comes to culinary output and precision. From blending soups and sauces to emulsifying marinades and dressings, these culinary blenders help talented chefs around the world express their artistic vision. Even better, their intelligent controls and large capacities maximize speed-to-table so you can uphold impeccable service.

HBF510 Series

48 oz./1.4 L BPA Free Co-Polyester Container

- Variable Speed & Pulse Functions** – Allow for easier blending, pureeing, grinding, chopping, and emulsifying.
- Chop Function** – Cycles between low speed and operator-selected high speed.
- 2.4 Peak HP* Motor** – Has the torque needed for blending ingredients.
- Sealed Paddle Switches** – Leak resistant and easy to use.
- Durable Metal Drive Coupling**
- Large Dosing Cup** – Makes it easier to add liquid for emulsions while blending.
- Stainless Steel Blades** – Quickly cut through every ingredient.
- Lid Open Sensor** – prevents blending when lid is removed (230 V only).

Back-of-the-House Equipment

Providing versatility and durability

By saving valuable time and labor, these versatile kitchen tools can help every commercial food operation improve their bottom line. From small shops to large restaurants, our hard-working tools are the ones to keep on hand when you need to mix cookie doughs or cake batters, prepare perfect rice, open cans, or serve food with consistent portion sizes.

CPM800 Series

37590

HCO500

78

80

Stand Mixer

Powerful performance

8 Quart (8 L) Capacity – Small enough for the countertop, yet robust enough to handle any mixing job.

Tilt-Back Head – Makes it easy to add ingredients, scrape sides, change attachments, and remove the bowl.

Stainless Steel Bowl with Handles – Makes it easy to lift and carry contents.

Heavy-Duty Attachments – Stainless steel beater, dough hook & wire whisk with splash shields to keep ingredients away from the hub area.

Variable 7 Speed Dial + Pulse – Allows for speed changes while mixing.

Sealed Stop/Start Buttons – Easily respond to touch for ease of use.

Rice Cooker

90 cup

Extra-Large Capacity – Lets you cook 90 cups of cooked rice (45 cups raw).

Digital Control Panel – Provides multiple cooking options and is easy to keep clean.

Heat/Simmer Function – Maintains the right temperature to help prevent boilover for up to 4 hours.

Insulated Double-Wall Construction – With hinged/heated lid that's easy to open and close.

Nonstick Inner Pot with Handles – Makes it easy to lift and carry contents.

Condensation Cup – Collects water to keep messy drips off countertops.

Accessories Included – Rice measuring cup and paddle.

Side-Cut Can Opener

No more sharp edges

Opens Seam of Can – Cans are opened on the side seam instead of puncturing the lid, so no sharp edges.

No Cross Contamination – No blade to make contact with food, unlike conventional can openers.

No Risk of Metal Shavings – Since the lid is not being cut with a blade, metal shavings won't get into the food.

No Gears to Wear or Break – Removes the possibility of downtime.

Durable Construction – Made of stainless steel and nickel-plated aluminum for durable performance.

Same Mounting Pattern as Edlund* – for easy installation.

78 Series Dishers

Classic style

Portion Control – Each of the 9 disher sizes lets you serve consistent portions every time. Choose from the smallest purple disher with 1-1/2" bowl diameter to the largest white disher with 3" bowl diameter.

Color-Coded Handles – Bright, identifiable colors make it easy to select the correct disher for improved service and correct portion sizes.

Durable Stainless Steel – The bowl, thumb lever, and spring are made of stainless steel for long life and easy cleanup in the dishwasher.

Heavy-Duty Spring Action – The heavy-duty stainless steel spring allows for ease of operation and long-lasting durability.

80 Series Dishers

Deluxe style

80 series dishers have all the features of the 78 series shown left, plus these extras:

Pan Rest™ Feature – These convenient notches in the handles let the dishers rest on the edge of pans to help prevent slippage that could slow down service.

Ergonomic Grip – Handles are shaped to create a comfortable grip, which helps reduce hand and arm fatigue.

Imprinted Capacity – Since the capacity of each disher is clearly molded onto the handle, there's never a question about which size disher is being used.

FreshMark™ Family of Juicers

Maximizing juice output

We’ve built commercial-quality juicers since 1932, when our 932 manual juicer first made its mark. Today the FreshMark™ family of commercial juicers offers businesses the maximum output they need in order to keep the juice flowing. Whether you run a juice shop, bar, supermarket, or a chain of restaurants, each one is expertly designed to offer you excellent juicing performance you can count on every single day.

932

H CJ967R Series

H WG800

H JE960R Series

Manual Citrus

Fills a glass of juice in less than a minute

- 20-50 Glasses Daily** – Ideal for operations that serve up to 50 glasses of juice per day.
- Citrus Versatility** – Designed to extract juice from lemons, limes, oranges, and grapefruits.
- Maximum Juice Extraction** – Exerts up to 2000 lbs. of force to ensure maximum juice output.
- Acid-Resistant Finish** – Resists wear and tear from exposure to citrus acids.
- Stainless Steel Strainer Cone** – Removes for easy cleaning in the dishwasher.
- 5.5" Cup Clearance** – Provides ample room to place an 8-10 oz. cup underneath for juicing.
- Sure Grip™ Feet** – Keep the juicer firmly in place.

Electric Citrus

Fills a glass of juice in less than 30 seconds

- 100+ Glasses Daily** – For operations that serve up to 100 glasses of juice per day.
- Citrus Versatility** – Designed to extract juice from lemons, limes, oranges, and grapefruits.
- Exceptionally Quiet** – The brushless induction motor is barely audible, so operators can more easily focus on customers.
- Heavy-Duty Construction** – Designed to withstand continuous juicing. Die-cast aluminum base makes the juicer less prone to tipping over.
- 3 Metal-Reinforced Reamers** – Maximize juice output from small to large citrus fruits.
- Stainless Steel Juice Bowl** – Removes for easy cleaning.
- Extra-Tall (8.5"/21.6cm) Spout** – Accommodates everything from small juice glasses to large pitchers.

Wheatgrass

Extracts up to 5 oz./150ml per minute

- Versatile Extraction** – Designed to extract juice from wheatgrass, ginger, and leafy herbs.
- Powerful, High-Torque Motor** – Provides optimal juice extraction for maximum yield.
- Durable Construction** – Solidly built for rigorous professional use with stainless steel components and permanently lubricated, air-cooled motor.
- Surgical-Grade Internal Assembly** – Top-quality 304 surgical grade stainless steel parts provide long life.
- Removable Food Zone Parts** – Can be quickly removed for fast, easy cleaning.
- Convenient Toggle Switch** – Includes a reverse option for cleaning after extracting dry herbs and sprouts.
- Maintenance Kit Included** – Comes with 2 metal screens and two gaskets.

otto™ The Juice Extractor

Extracts approximately 2 qts. / 2L per minute

- 100+ Glasses Daily** – For operations that require large yields of juice from a variety of produce and/or serve 100 or more glasses of juice per day.
- Centrifugal Extraction** – Extracts juice from apples, carrots, cucumbers, celery, red beets, ginger, leafy greens, and more.
- Powerful Brushless Induction Motor** – Provides quiet operation and has dual cooling fans for continuous juicing.
- Heavy-Duty Die-Cast Base** – Provides exceptional durability and keeps juicer sitting securely on the countertop.
- 3" (76cm) Feed Chute Opening** – Minimizes prep time.
- Simple Single-Speed Operation** – For effortless juicing.
- Top-Quality Parts** – Stainless steel and BPA-free parts provide exceptional durability and are easy to clean.
- Heavy-Duty Metal Handle** – withstands repeated opening and closing and stops motor before lid can be opened.

ACCESSORIZE

Equip your kitchen with the vacuum sealer pouches and bags your staff needs for food storage and sous vide applications.

PrimaVac™ In-Chamber

10" (254mm) seal bar

10 Custom Programs – Let you adjust vacuuming and sealing times for different needs and recipes.

Powerful JetAire™ 8 m3/h Vacuum Pump – Provides robust, long-lasting service.

Adjustable Soft Air – Protects delicate food.

Adjustable Sealing and Cooling Time – Lets you customize sealing action to your exact preference and applications.

Oil Change Reminder – Helps ensure that you maintain a top-functioning pump.

Durable Stainless Steel Housing – Ensures long-lasting beauty and is easy to clean.

Accessories and Power Cords Included – Comes with 80 pouches, filler plate, tools, and electrical cords for UK, Continental Europe, and China.

12" (305mm) seal bar

10 Custom Programs – Let you adjust vacuuming and sealing times for different needs and recipes.

Powerful JetAire™ 12 m3/h (120 V), 10 m3/h (230 V) Vacuum Pump – Provides robust, long-lasting service.

Adjustable Soft Air – Protects delicate food.

Adjustable Sealing and Cooling Time – Lets you customize sealing action to your exact preference and applications.

Oil Change Reminder – Helps ensure that you maintain a top-functioning pump.

Durable Stainless Steel Housing – Ensures long-lasting beauty and is easy to clean.

Accessories and Power Cords Included – Comes with 80 pouches, filler plate, tools, and electrical cords for UK, Continental Europe, and China.

16" (406mm) seal bar

Gas Flush – Creates a protective cushion to keep food from being crushed.

10 Custom Programs – Let you adjust vacuuming and sealing times for different needs and recipes.

Powerful JetAire™ 24 m3/h (120 V), 20 m3/h (230 V) Vacuum Pump – Provides robust, long-lasting service.

Adjustable Soft Air – Protects delicate food.

Adjustable Sealing and Cooling Time – Lets you customize sealing action to your exact preference and applications.

Oil Change Reminder – Helps ensure that you maintain a top-functioning pump.

Accessories and Power Cords Included – Comes with 80 pouches, filler plate, tools, and electrical cords for UK, Continental Europe, and China.

AcuVide™ 1000 Sous Vide Circulator

1200 Watt Water Heater – Keeps up to 8 gallons (30 L) of water at an even, consistent temperature for uniform cooking.

IPX7 Construction – Prevents malfunction if accidentally dropped in water.

Adjustable Timer with Easy-to-Read Display – Select up to 99 hours of sous vide time and set water temperature in your choice of Fahrenheit or Celsius.

Stainless Steel Lower Housing – Removes for easy cleaning.

Cleaning Cycle and Reminder – Helps keep the circulator in top performance.

Water Level Marks and Warning Signal – Help unit run uninterrupted.

Adjustable Clamp – Allows for best placement in vessel and secures without tools.

PrimaVac™ External

16" (406mm) seal bar

One-Touch Operation – Automatically sequences machine from vacuuming to sealing to releasing.

16" (40.6cm) Seal Bar – For sealing wide bags or two smaller bags at once.

LED lights – Indicate each vacuuming stage.

Powerful Double-Piston Pump – For fast vacuuming.

Durable Stainless Steel Housing – Ensures long-lasting beauty and is easy to clean.

Optional Manual Mode – Perfect for using rolls or for sealing soft foods.

Transparent Lid – For easy bag alignment.

In-Chamber Sealer Pouches

- FDA-approved for temperatures above 121 °C (249 °F)
- Made of 9 layers of smooth PA and PE for oxygen barrier and puncture protection
- Available in 3 and 4 mil thicknesses

External Vacuum Sealer Bags

- Heavy-duty embossed bags for efficient air removal and airtight seal
- BPA-free and FDA-approved for storage

See next page for complete selection of bags and pouches

Global Warranty Coverage

Hamilton Beach Commercial® stands behind its products, and our global warranty coverage and customer service are second to none. If you ever have an issue, we provide fast, friendly service that's available when you need it.

FOR OUR U.S. CUSTOMERS:

For qualifying products, follow this easy 3 step process:

1. Dial 1-866-285-1087 to speak to a member of our highly trained technical services staff (M-F 8am-5pm EST). We will make an initial phone diagnosis.
2. If it is determined that minimal on-site maintenance cannot be performed, Hamilton Beach Commercial® will ship a replacement product to your location.
3. Once the replacement unit is received, you send the troubled unit back to Hamilton Beach Commercial® (we will provide the box and supporting materials to return the unit and we pay the freight cost for the returned unit).

For all other products, please call 1-866-285-1087 to receive assistance on your parts and labor warranty.

Note: Limitations and exclusions apply. Express Care is only available to end users located in the continental US, Alaska and Hawaii.

FOR OUR GLOBAL CUSTOMERS:

We have a network of highly trained service companies in over 60 countries worldwide.

We provide 24/7/365 support via our dedicated technical services website which includes:

- detailed troubleshooting and repair instructions
- drawings with exploded view
- recommended parts lists
- registered service centers by country
- operation manuals and agency certifications

Our technical services team, based in North Carolina USA, offers a variety of training options, including web-based training.

Visit us at:

hamiltonbeachcommercial.com to find your country service provider, contact us directly at +1-910-693-4277 or send an email to: commercial.support@hamiltonbeach.com.
